RESEARCH REPORT: RR 25545
(CSI # 06170)

BASED UPON ICC EVALUATION SERVICE
REPORT NO. ESR-1053

REEVALUATION DUE DATE:
April 1, 2009

GENERAL APPROVAL - Reevaluation/Clerical Modification - Ainsworth 1 1/4-inch 0.8E Durastrand Oriented Strand Lumber (OSL).

DETAILS

The above assemblies and/or products are approved when in compliance with the description, use, identification and findings of Report No. ESR-1053, dated November 1, 2005, of the ICC Evaluation Service, Incorporated. The report, in its entirety, is attached and made a part of this general approval.

The parts of Report No. ESR-1053 marked by the asterisks are the part modified or deleted by the Los Angeles Building Department from this approval.

The approval is subject to the following conditions:

1. All products recognized in this Research Report shall be fabricated in a shop of a fabricator licensed by the City of Los Angeles Building Department, in accordance with the Manufacturing Standards submitted to the Department.
2. Design values are subject to adjustment for duration of load as provided in the Code.
3. All products recognized in this Research Report shall be limited to end use locations at which the average equilibrium moisture content is equal to or less than 16 percent.
4. Designs requiring load determination calculations shall be done by a civil or structural engineer in the State of California.

Ainsworth Lumber Co. Ltd.

Re: Ainsworth 1 1/4-inch 0.8E Durastrand Oriented Strand Lumber (OSL)

DISCUSSION

The clerical modification is to correct company name to Ainsworth Lumber Co. Ltd. and product description to Ainsworth 1 1/4-inch 0.8E Durastrand Oriented Strand Lumber (OSL)

Addressee to whom this Research Report is issued is responsible for providing copies of it, complete with any attachments indicated, to architects, engineers and builders using items approved herein in design or construction which must be approved by Department of Building and Safety Engineers and Inspectors.

This general approval of an equivalent alternate to the Code is only valid where an engineer and/or inspector of this Department has determined that all conditions of this approval have been met in the project in which it is to be used.

This general approval will remain effective provided the Evaluation Report is maintained valid and unrevised with the issuing organization. Any revisions to the report must be submitted to this Department, with appropriate fee, for review in order to continue the approval of the revised report.

The status of the referenced Evaluation Report No. ESR-1053 dated November 1, 2005, which is currently beyond its reexamination date is still valid. The validity of the evaluation report is verified with ICC.
