RESEARCH REPORT: RR25725
(CSI # 06 05 23)

BASED UPON ICC EVALUATION
REPORT NO. ESR-2608

REEVALUATION DUE
DATE: September 1, 2018
Issued Date: October 1, 2016
Code: 2014 LABC

GENERAL APPROVAL – Reevaluation - Simpson Strong-Tie – Plate Ties, Wall Bracing, and Joist Bridging for Wood Construction.

DETAILS

The above products are approved when in compliance with the use, description, design, installation, conditions of use and identification of Report No. ESR-2608, reissued January 1, 2016, of the ICC Evaluation Service, Incorporated. The Report in its entirety is attached and made part of this general approval.

The parts of Report No. 2608 marked by the asterisks have been deleted by the City of Los Angeles Building and Safety Department from this approval.

The approval is subjected to the following conditions:

1. Calculations and details to show compliance with this report shall be submitted to Structural Plan Check for review and approval. Calculations and details shall be prepared, signed, and sealed by California licensed engineer.
2. Allowable loads must be reduced when load duration with lower value of C_D (than what is in the tables) governs.

Re: Simpson Strong-Tie – Plate Ties, Wall Bracing, and Joist Bridging for Wood Construction.

DISCUSSION

The report is in compliance with 2014 City of Los Angeles Building Code.

The approval is based on tests in accordance with ICC-ES Acceptance Criteria for Joist Hangers and Similar Devices (AC 13), dated October 2010 (corrected December 2011).

This general approval will remain effective provided the Evaluation Report is maintained valid and unrevised with the issuing organization. Any revision to the report must be submitted to this Department for review with appropriate fee to continue the approval of the revised report.

Addressee to whom this Research Report is issued is responsible for providing copies of it, complete with any attachments indicated, to architects, engineers and builders using items approved herein in design or construction which must be approved by Department of Building and Safety Engineers and Inspectors.

This general approval of an equivalent alternate to the Code is only valid where an engineer and/or inspector of this Department has determined that all conditions of this Approval have been met in the project in which it is to be used.
